CERTIFICATION

TABLE OF CONTENTS

APPENDICES TABLE OF CONTENTS

INTRODUCTION

A statewide Hospital Discharge Data System (HDDS) is one of the most important tools for addressing a broad range of health policy issues. Act 670 of 1995, A.C.A. 20-7-301 et seq. requires all hospitals licensed by the state of Arkansas to report information on inpatient discharges.

In order to simplify the reporting process, the Arkansas HDDS is based on the Health Care Finance Administration (HCFA) UB-04.

In accordance, the Arkansas Department of Health (ADH) is required to collect, analyze and disseminate selected health care data. This Guide defines the data that hospitals will submit for the specific purpose of constructing the Hospital Discharge Data System.

The Health Statistics Branch can provide technical consultation and assistance. Initially, such consultation or assistance must necessarily be limited to activities that specifically enable the hospital to submit data that will meet the requirements. For further information, contact Lynda Lehing, Manager of HDDS.

1.0 DATA REPORTING SOURCE

All facilities operating and licensed as a hospital in the State of Arkansas by ADH, Health Facility Services Section, will report discharge data to ADH for each patient admitted as an inpatient or with at least one full day of stay (overnight). Discharge data means the consolidation of complete billing, medical, and personal information describing a patient, the services received, and charges billed for a single inpatient hospital stay. The consolidation of discharge data is a discharge data record. The formats are defined later in this Guide.

For a patient with multiple discharges, submit one discharge data record for each discharge. For a patient with multiple billing claims (refer to Section 0 5.6 Multi - Hospital Submission), consolidate the multiple billings into one discharge data record for submission after the patient's discharge. A discharge data record is submitted for each discharge, not for each bill generated. The discharge data record should be submitted for the reporting period within which the discharge occurs. If a claim will not be submitted to a provider or carrier for collection (e.g., charitable service), a hospital discharge data record should still be submitted to the ADH, with the normal and customary charges, as if the claim was being submitted. All acute and intensive care discharges or deaths, including newborn discharges or deaths, should be reported.

A hospital may submit discharge data directly to ADH, or may designate an intermediary, such as a commercial data clearinghouse. Use of an intermediary does not relieve the hospital from its reporting responsibility.

In order to facilitate communication and problem solving, each hospital should designate a person as contact. Please provide the office name, telephone number, job title and name of the person assigned this responsibility.

2.0 CONFIDENTIALITY OF DATA

Act 670 of 1995, A.C.A. 20-7-301 et seq. provides for the strictest confidentiality of data and severe penalties for the violation of the Act. Any information collected from hospitals which identifies a patient, provider, institution, or health plan cannot be released without promulgation of rules and regulations by the Arkansas State Board of Health in accordance with Act 670 Section (2)(g) and (h). ADH will only release data, except as allowed by law that has sufficiently masked these identities.

Since ADH needs patient specific information to complete our analyses, we will take every prudent action to ensure the confidentiality and security of the data submitted to us. Procedures include, but are not limited to, physical security and monitoring, access to the files by authorized personnel only, passwords and encryption. Not all measures taken are documented or mentioned in this Guide to further protect our data.

3.0 SUBMITTAL SCHEDULE

Discharge data records will be submitted to ADH as specified below. The data to be submitted is based on the discharges occurring in a calendar quarter. If a patient has a bill generated during a quarter but has not yet been discharged by the end of the quarter, data for that stay should not be included in the quarter's data. Deadlines for data submission are 40 days after the end of the quarter for the first through third quarters and 60 days for the fourth quarter.

While most hospitals will be submitting data directly to ADH, some are utilizing third-party intermediaries. When using an intermediary, the reporting deadlines are still to be met. Refer to Section 0 5.7 Intermediaries for further details.

3.1 REPORTING SCHEDULE

Patients' date of discharge is:	*Discharge data must be received by:*
January 1 through March 31	QTR 1 – May 10th
April 1 through June 30	QTR 2 – August 10th
July 1 through September 30	QTR 3 – November 10th
October 1 through December 31	QTR 4 – March 1st

3.2 REQUEST FOR EXTENSION

All hospitals will submit discharge data in a form consistent with the requirements unless an extension has been granted. Request for extension should be in writing or email and be directed to:

Arkansas Department of Health
Health Statistics Branch, Slot #H19
Hospital Discharge Data Section
4815 West Markham Street
Little Rock, AR 72205
Phone (501) 661-2231
FAX (501) 661-2544
E-mail: Lynda.Lehing@arkansas.gov

The Health Statistics Branch will review requests submitted to them for extensions to the reporting schedule requirement. A request for an extension should be submitted at least 10 working days prior to the reporting deadline. Extensions may be granted for a maximum of 20 calendar days. Additional 20-day extensions must be requested separately. Extensions may be granted when the hospital documents that unforeseen difficulties, such as technical problems, prevent compliance.

4.0 DATA ERRORS AND CERTIFICATION

Hospitals will review the discharge data records prior to submission for accuracy and completeness. Correction of invalid records and validation of aggregate tabulation are the responsibility of the hospital. All hospitals will certify the data submitted for each quarter in the manner specified.

4.1 ERROR CORRECTION

Edits that indicate a high probability of error will be highlighted for review, comment, and correction when applicable. The invalid record will be printed in a simplified format providing record identification, an indication or explanation of the error, and space to record corrections. The error report will be sent by fax or email to the attention of the individual designated to receive the correspondence at the hospital. The corrections made by the hospital are to be returned within seven days of receipt to the Health Statistics Branch.

In the event one (1) percent or more of the records for a quarter are indicated as having a high probability of error, the entire submittal may be rejected. A record is in error when one or more required data elements are in error.

Notification of the rejection will accompany the error report and will be sent by fax or email to the attention of the individual designated to receive the correspondence at the hospital. After correction, the submittal is to be returned within seven days of receipt, to the Center for Health Statistics. In some situations, the HDDS staff will make corrections to the hospital's submissions, based on information obtained from hospital staff and/or internal health department databases. When this is done, notice will be given to the hospital.

5.0 DATA SUBMITTAL SPECIFICATIONS

The preferred method of submitting data is via secure FTP. Alternate modes of transmission such as email or CD may be established by agreement with the Health Statistics Branch. Data submittals not in compliance with media or format specifications will be rejected unless approval is obtained prior to the scheduled due date from the Health Statistics Branch. Data submittal on physical media should be mailed to:

Arkansas Department of Health
Health Statistics Branch
Hospital Discharge Data System
4815 West Markham Street, Slot H19
Little Rock, AR 72205

If you are submitting data for more than one hospital on one submission, the additional specifications found in Section 5.6 Multi - Hospital Submission must be followed.

5.1 FILE COMPRESSION

WINZIPis the compression utility of choice by HDDS. If a compression utility other that WINZIPis used, the resulting file must be able to be unzipped by HDDS. Please contact an HDDS colleague prior to sending a file compressed with any compression software other than WINZIP.

5.2 FILE ENCRYPTION

Encryption of data files sent as email attachments is required. Refer to Section 5.4, E-Mail Attachment Submissions- Secondary Submittal Format.

5.3 FILE TRANSFER PROTOCOL (FTP) – PRIMARY SUBMITTAL FORMAT (PREFERRED)

The following specifications must be met when submitting data using the FTP:

A. The secured web site is at: http://adhftp.arkansas.gov.

B. Upload by accessing the secured web site and inputting the user name and password. Please contact a HDDS colleague for the user name and password.

   1) Click “Browse” to search for the hospital data file.

   2) Select the data file for quarter you wish to submit.

Please note the data file name must be created in the following format, HHHHQNYYVN.dat, where:

a) HHHH = four letters for the hospital,

b) QN = quarter Number,

c) YY = two numbers for the year,

d) VN = shipment Number,

HDDSQ114V1.dat will tell us Hospital Discharge Data Systems uploaded quarter 1 of 2014 one time. If you do not know the four letter code for the hospital (HHHH), please contact an HDDS colleague for that information.

3) Click “Upload.”

5.4 E-MAIL ATTACHMENT SUBMISSIONS – SECONDARY SUBMITTAL FORMAT

The following specifications must be met when submitting data by email attachment via the Internet:

A. Hospitals must encrypt the attachment containing the data, preferably utilizing the WINZIPencryption function.

B. The physical characteristics of the attached file must have the following attributes:

1) Record Length - 321 bytes, Fixed (1450 format), 361 Fixed (1450Y2K format)

2) PC Text File (ASCII), WINZIPfile or self-extracting executable file, refer to Section 5.1 File Compression.

C. Each E-mail submission must include a general message that contains the following information:

1) The description: 'HOSPITAL DISCHARGE DATA' in SUBJECT field,

2) Hospital's name,

3) Date of submittal as MM/DD/YY,

4) Beginning and ending dates of the reporting period (e.g., 1/1/14-3/30/14),

5) The name and telephone number of the contact person.

D. Refer to paragraph C, Section 5.5 for 'filename.extension' naming standard for the attached file.

5.5 CD-ROM SUBMITTAL SPECIFICATIONS - SERVER DOWN SUBMITTAL

The following specifications must be met when submitting data on PC CD'S:

A. Hospitals will submit no more than one CD per quarter.

B. The physical characteristics of the CD Rom must have the following attributes:

1) Record Length - 321 bytes, Fixed (1450 format), 361 bytes, Fixed (1450Y2K format),

2) ASCII, WINZIPfile or self-extracting executable file.

Self-extracting executable file must run on Windows XP or higher operating system. Source and target of WINZIPor executable file must be ASCII. ASCII file must have a carriage-return (CR) and line-feed (LF) at the end of each data record.

C. All CD's must have an external label or accompanying data sheet containing the following information:

1) The description: 'HOSPITAL DISCHARGE DATA',

2) Hospital's name,

3) Date of submittal as MM/DD/YY,

4) Beginning and ending dates of the reporting period (e.g., 1/1/14- 3/30/14),

5) Number of records,

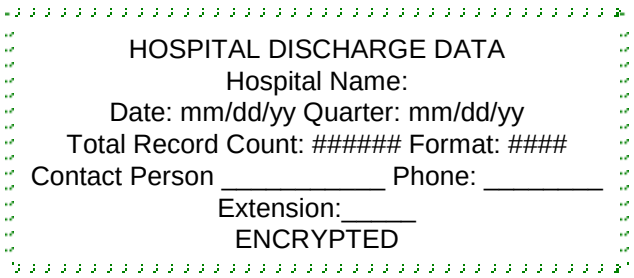
6) Record format (1450),

7) The name and telephone number of the contact person

8) PC extension, ASCII or ZIPor EXE (refer to paragraph D, 4).

9) If encrypted, the description: 'ENCRYPTED' (refer to Section 5.2 File Encryption).

An example of the label for the case is as follows:



D. Use the following 'filename.extension' file naming standard:

1) The first two positions of the filename will be the last two digits of the calendar year,

2) The next three characters will be 'QTR',

3) The last position must be the quarter from one through four that indicates the quarter of the calendar year of the data submitted,

4) The extension will be 'TXT' **or** 'DAT' for a PC Text file **or** 'ZIP' for a file compressed with WINZIP**or** 'EXE' for a self-extracting file.

Example: 14QTR1.TXT - ASCII data file for the first quarter of 2014

5.6 MULTI - HOSPITAL SUBMISSION

Data from more than one hospital may be submitted on one media submission as one file per hospital. Change the following items on your external label or accompanying information sheet:

A. If you are not a hospital, replace 'Hospital:' with your company name.

B. If you are a hospital or subsidiary of a hospital, replace 'Hospital:' with 'Agent:' and your hospital name.

C. If multiple files are on the submission, replace 'Total Record Count:' with 'Number of Files:'

D. The contact person and phone number should be that of the agent or company, not the hospital.

E. If multiple files are placed on a CD, the 'filename.extension' file-naming standard must change. The last two positions of the filename (follows 'QTR' and quarter number) must be the file number provided. In addition to the above changes, a list of hospitals on the medium must be provided, with tax id, number of records, and hospital contact.

5.7 INTERMEDIARIES

Third-party intermediaries may be utilized by hospitals for the delivery of data to ADH. To better manage data collection, intermediaries must be registered with ADH. Additions and deletions to the intermediary's list of hospitals represented must be submitted at least 10 days prior to ADH reporting due date. The intermediary must specify hospitals being represented, media, formats, contacts, and length of contractual obligation.

5.7.1 EDITING INTERMEDIARIES

The following additional requirements and information apply to intermediaries delivering edited data to the ADH:

A. The data must not have an error rate greater than 1 percent.

B. Each hospital's data must be submitted in a separate file.

C. Data may be submitted through the secure FTP server.

5.7.2 PASS-THRU INTERMEDIARIES

The following additional requirements and information apply to intermediaries delivering unedited data to ADH:

A. The data must not have an error rate greater than 1 percent.

B. Each hospital's data must be submitted in a separate file.

5.8 SUBJECT TO CHANGE

Data submission methods are always under review. If implemented, all Arkansas hospitals will receive notice of the changes to be implemented.

6.0 DATA RECORD FORMATS

The accepted data record formats are the UB-04 1450 version 7 formats. This format has altered slightly. The definition specified for each data element is in general agreement with the definition in the UB-04 Users' Manual. Hospitals using data sources other than uniform billing should evaluate definitions for agreement with the definitions specified in this Guide and UB-04 Users' Manual. Refer to Section 7.0 EXCEPTIONS TO 1450 FORMAT to identify possible changes to your current format. Each record must be followed by a carriage return/line feed sequence.

6.1 'UB-04-1450' RECORD SPECIFICATION

The UB-04 1450 claim 'record' is made up of a series of 321-character physical records and the 1450 Y2K claim "record" is made up of a series of 341 character physical records. Not all of the physical claim records are used in the HDDS, such as the Claim Request Data. Records not specified in the HDDS will be ignored, if included in the submittal. Fields not referenced in the record formats may contain information but will not be processed by computer programs; this also includes fields reserved for national use. The exact record sequence and format of the 1450 is used for the HDDS, when possible. A complete copy of the patient's 1450 records would satisfy the requirements, with exceptions noted in Section 7.0 - EXCEPTIONS TO 1450 FORMAT. The physical records for each claim are divided into logical subsets as follows:

Subset 1 ***Patient Data*** - Record Codes 20-29
Subset 2 ***Third Party Data*** - Record Codes 30-39
Subset 3 ***Claim Request Data*** - Record Codes 40-49
Subset 4 ***Inpatient Accommodations Data*** - Record Codes 50-59
Subset 5 ***Ancillary Services Data*** - Record Codes 60-69
Subset 6 ***Medical Data*** - Record Codes 70-79
Subset 7 ***Physician Data*** - Record Codes 80-89

The record layouts that follow will provide the following information:

A. ***Record Name***: The name of the data record.

B. ***Record Type***: Code indicating the type of record.

C. ***Record Size***: Physical length of record

D. ***Required Field Annotation***: An asterisk '*' denotes the field is required and must contain data if applicable.

E. ***Field Number***: Field number as specified on the UB-04 1450 version 7 file layout. This number is not the Form Locator number found on the UB-04 1450 form.

F. ***Field Name***: Name generally used with the UB-04 1450 Form.

G. ***Picture***: This is the COBOL picture. Pic X is initialized to blanks and Pic 9 is initialized to zeroes. All money and date fields are Pic 9.

H. ***Field Specification***: Indicates how the data field is justified. L = Left justification, and R = Right justification.

I. ***Position***: From = Leftmost position in the record (high order). Thru = Rightmost position in the record (low order).

J. ***Form Locator***: Number found on the UB-04 Form and associated with the field in that location.

6.2 1450 & 1450Y2K -RECORD TYPE 10 - PROVIDER DATA

Only one type '10' record is required per hospital per submittal. Only the first type '10' record and will be processed. This record type will be processed as a header record and a record type '95' will be processed as a trailer record. The records encapsulated between the first type '10' and '95' will be processed using the hospital specified on the type '10' record. If the Federal Tax Number is not unique to a facility or cost center, the Federal Tax Sub ID must be included.

6.6 1450 & 1450Y2K RECORD TYPES 30-31 – THIRD PARTY PAYER DATA

The use of these record types for the HDDS is the same as the UB-04 claim. When reporting for HDDS, records may need to be consolidated and amounts accumulated by payer. Below are specifications and an example as taken from UB-04.

One third party payer record packet (record type 30) must appear in the bill record for each payer involved in the bill. Each third party payer packet must contain a record type 30. However, each record type 30 may or may not have an associated record type 31, depending on the specific third party payer data required by the particular payer.

Example: Medicare is primary, and the secondary payer requires the insured's address.

	Record Type Code	**Seg.No.**
Medicare	30	01
Secondary Payer	30	02
Secondary Payer	31	02

Because the sequence number of the type 31 record for the secondary payer matches the sequence number of the secondary payer's type 30 record, it serves as a matching criterion for the specific third party payer record packet.

Sequence 01 represents the primary payer, sequence 02 represents the secondary payer, and sequence 03 represents the tertiary payer.

7.0 EXCEPTIONS TO 1450 FORMAT

In general, the submittal is identical to the current UB-04 1450 version 7 format used. The differences are minor but nevertheless important. The most notable difference is the requirement for one discharge record for one patient, as opposed to the possibility of multiple claim records for one patient. For discharges with multiple claim records, they should be consolidated into a single discharge, accumulating amounts where necessary (e.g., amounts by Payer).

Only one type ‘10’ is required per hospital per submittal. Only the first type ‘10’ record a type ‘95’ record will be processed, all others will be ignored. A record type ‘10’ will be processed as a header record and a record type ‘95’ will be processed as a trailer record.

In record type ‘20’, **‘Statement Covers Period Thru’** should be the discharge date.

In record type ‘95’, Federal Tax Sub ID must be the same as specified on the type ‘10’ record.

‘Number of Claims’ in record type ‘95’ should be the number of discharges reported in the batch, after the batch equal to the number of type ‘20’ records.

Record type ‘27’ is not a record type used in the UB-04 claim. It contains data that may come from other record types, such as **‘Type of Bill’** or may be computable, such as **‘Total Charges’** or should be found in your current databases, **‘Patient Social Security Number’** for example.

8.0 USE OF MULTI-PAGE CLAIMS

All data except revenue code and charge fields should be duplicated on successive records. All available revenue and charge fields should be completely filled before using additional records. The ‘0001’ revenue code should be the last entry on the last record for a multi-page claim and its charge should be equal to the total charge for all pages.

DATA DICTIONARY

The definition specified for each data element is in general agreement with the definition in the UB-04 Users' Manual. Hospitals using existing UB-04 record formats should reference Section 7.0 - EXCEPTIONS TO 1450 FORMAT, for differences from the established UB-04 record formats. Hospitals using data sources other than uniform billing should evaluate their definitions for agreement with the definitions specified in this Guide and the UB-04 Users' Manual.

A1 The dictionary format that follows will provide the following information:

1. ***Data Element:*** The name of the data element
2. ***Char Type:*** Character type for the data element

   N = numeric

   A = alphanumeric
3. ***Char Length:*** Character length of data element. For fields with an implied decimal point, the first number is the total length, the second number is the length after the implied decimal point (e.g., '9, 2' represents the COBOL picture clause 9(7)V99).
4. ***Data Reporting Requirement for the Data Element Level:***

   Required = must be reported

   As available = must be present, if captured in your database
5. ***Definition:*** A definition of the data element
6. ***General Comments:*** These comments help to further define or explain the data Comments: elements and give permissible values for code and type data elements.
7. ***Edit:*** Minimal edits that will be performed on the data element; these edits should be performed by the hospital prior to submission.

EDIT	The patient status code must be present and a valid code as defined. A patient status code of 30 is not a valid code. *In situations where a patient is admitted before midnight of the third day following the day of an outpatient service, the outpatient services are considered inpatient. History. Acts 1995, No. 670, § 1.

20-7-302. Purpose.

The General Assembly finds that as a result of rising health care costs, the shortage of health professionals and health care services in many areas of the state, and the concerns expressed by care providers, consumers, third party payers, and others involved with planning for the provision of health care, there is an urgent need to understand patterns and trends in the availability, use, and costs of these services. Therefore, in order to establish an information base for patients, health professionals, and hospitals, to improve the appropriate and efficient usage of health care services, and to provide for appropriate protection for confidentiality and privacy, the Department of Health shall act as a state health data clearing house for the acquisition and dissemination of data from state agencies and other appropriate sources to carry out the purposes of this subchapter.
