The fee is calculated by multiplying the fee per ton by the weight of the waste in pounds (as determined in Section VII.J.1.a.b. or c. of the Rule) divided by two thousand (2,000). The division should be carried to the second decimal and rounded to the nearest tenth as follows:

EXAMPLE FEE CALCULATION:

$$\frac{\text{Weight of Waste in Pounds}}{2,000 \text{ pounds/ton}} \times \$5.00/\text{ton} = \text{fee}$$

ACTUAL FEE CALCULATION:

$$\frac{\text{_____}}{2,000 \text{ pounds/ton}} \times \$5.00/\text{ton} = \boxed{\text{_____}}$$
