

Continuing Education Seminar for Limited Licensed Radiologic Technologists 2024

Presented by Ray Winters, M.S., RT(R)(CT)
Director of Radiologic Sciences at Arkansas State University

8:30 - 9:20 **Radiation Monitoring: Film Badges, Film Badge Reports and Room Design** (1 hr CE)

This presentation covers the various types of radiation monitoring devices, applicable rules and regs, and looks at various requirements for room design. It includes some of the “ins and outs” of radiation dose management.

9:20 - 10:10 **Radiographic Anatomy and Positioning of the Spine** (2 hr CE)

This presentation covers radiographic anatomy and positioning of the cervical, thoracic and lumbar spine. It provides concepts, terminology and practical tips to prepare you to produce optimal images and review images for acceptability.

10:10-11:00 **Understanding Image Quality** (1 hr CE)

This presentation is designed to give a basic working knowledge of the various quality factors that should be addressed when evaluating an image. Emphasis will be placed on the 4 basic image quality dimensions.

11:00 - 12:20 **Radiologic Health Records Management** (1 hr CE)

A brief look at some specific regulation unique to the radiology setting.

12:20 – 1:30 **So the Department of Health Shows up! Now what?** (1 hr CE)

This is a practical look at some of the requirements mandated by the Arkansas Department of Health for radiologic settings in physicians' offices and the necessary response required to successfully pass!
